## Timber Buying guide

We stock an extensive range of hardwoods and softwoods, which feed our state of the art machining facility.

From rough sawn, to planed, to complex profiling, we can meet your requirement.

Select your species, the finished dimensions and the lengths required, and let our team do the rest. We can work to a sketch, CAD drawings or a physical sample.

On these 2 pages you will find prices for our most popular species, in industry standard sizes. The price per metre is sawn to size, so for planed timber, please allow a £15 + VAT minimum machining charge up to 10m and £1.50 + VAT per metre thereafter. A planed finish will be at least 5mm below the overall sizes stated and orders will be subject to minimum lengths available from stock.

Printed prices are based on small quantities, so for larger enquiries please do get in touch with our team for a competitive quote. We offer a fully bespoke, machine to order service, so whatever the finished size, profile or species, we aim to offer a solution.
